"I had not really thought I would find anything, just a slim chance that there might be something explaining the adoption in the court papers. So it will remain a mystery. If I find myself in England with time to spare I will certainly drop in to the Archive Centre. In the meantime, thank you once again for the interest you have taken in my research and the checks you have made on my behalf"

"Recently I visited Coseley Archives Centre in the hope of solving a "Family Tree" problem that has puzzled me for about 5 years. Was about to give up when members of the staff asked me if they could help. In about 20mins they had helped me clear the problem, can now trace my great, great grandfather's family history back to his 1807 birth and have all the records "on paper" to prove it, for which I will always be grateful to Coseley Archives. Over previous years from early "searching" days, have always found Coseley staff extremely helpful, so has my cousin from Australia who has visited Coseley Archives doing researches for herself and friends back in "OZ". She always said she got more help from "Coseley" staff than other archives that she visited during her holidays in England. Thanks a Bundle.
