

PRIVACY NOTICE

Data Protection Act 1998: How we use your information

The **Local Authority (LA)** uses information about children and young people to enable us to carry out specific functions for which we are responsible. We also use this personal data to derive statistics which inform decisions we make (e.g.) regarding the funding of schools, assess their performance and to set targets for them. These statistics are used in such a way that individual children cannot be identified.

As a local authority, we are committed to protecting and safeguarding children and young people in the Borough. The Multi-Agency Safeguarding Hub (MASH) is a co-located arrangement of agencies integrated into a multi-agency team.

The Single Point of Access Team (SPA), which is the single point of contact for safeguarding concerns, and the MASH share information appropriately and securely on children or young people in order to take timely and appropriate actions. The teams also provide information and advice across a range of child and family services.

The LA will use information about its school workforce for research and statistical purposes, and to evaluate and develop education policy and strategies. The statistics are used in such a way that individual staff cannot be identified from them. The LA may also use it to support and monitor schools regarding sickness and recruitment of staff.

From the 1st April 2013 the Council took on the Public Health role previously provided by the Primary Care Trusts (PCT). The Office of Public Health (OPH) will use information about pupils for research and statistical purposes, to monitor the performance of local health services and to evaluate and develop them. The statistics are used in such a way that individual pupils cannot be identified from them.

The National Child Measurement Programme (NCMP) is a statutory Public Health function. Information on the height and weight of individual pupils may be collected and recorded. It may then be provided to the child and its parents. OPH will maintain details of pupils' names for this purpose for a period designated by the Department of Health following the weighing and measuring process. OPH may also provide individual schools and LAs with aggregate information on pupils' height and weight. The collection of this information, as part of the NCMP, is undertaken on behalf of OPH under contract by school nurses from Shropshire Community Health NHS Trust.

Children's Health Records Services are now provided by Birmingham Community Healthcare Trust who have been contracted by NHS England to provide this service in this region. Information may be shared with them and appropriate Health Professionals to ensure that you can be fully informed of and consulted on relevant healthcare activities, for example, vision screening and vaccination services.

For further information, please refer to the Information Charter at the enclosed link:-

<http://www.dudley.gov.uk/privacy-disclaimer-statement/>

As Connexions forms part of Family Solutions, some information that is obtained will be shared amongst the wider Family Solutions team in order to identify what support is already being offered but also where further support may be provided. By offering access to a wider package of support means that our children, young people and families receive the right help, from the right service at the right time.

Until pupils are aged 16 or older, their parent(s) can ask that no information beyond their children's name, address, Special Educational Need status and date of birth (and their own name and address) be passed to the youth support services provider. This right transfers to the pupil on their 16th birthday. Pupils and/or parents will need to inform the school if this is what they wish.

It is strongly recommended that pupils and their parents do not opt out of the information being shared with Youth Support Services as this information is used to identify young people within Dudley schools who will need support from the Connexions service to move to a positive destination after leaving school and therefore complies with the Raising of the Participation Age.

Information may also be shared with some third party organisations where they are processing information on behalf of the Council in their capacity as Data Processors. For further information please contact:

Head of Family Solutions , 3-5 St James' Road, Dudley, DY1

Online information, advice and support on a range of issues affecting young people can be found on the Directgov Young People page at: www.direct.gov.uk/en/YoungPeople/index.htm with access to trained helpline advisers, via SMS text message, telephone, webchat and email.

Health and Safety

Where you have been involved in an accident, an Accident/Incident Report Form will be completed which will include details of the accident including information about you. This information will be passed to the Corporate Health and Safety Team at Dudley MBC. This information will be accessed by Dudley MBC employees, who legally require access to this data, for purposes related to this incident, and may be shared with others to allow us to comply with our statutory duties'.

DfE may share individual level personal data that we supply to them, with third parties. This will only take place where legislation allows it to do so and it is in compliance with the Data Protection Act 1998.

Decisions on whether DfE releases this personal data to third parties are subject to a robust approval process and are based on a detailed assessment of who is requesting the data, the purpose for which it is required, the level and sensitivity of data requested and the arrangements in place to store and handle the data. To be granted access to pupil level data, requestors must comply with strict terms and conditions covering the confidentiality and handling of data, security arrangements and retention and use of the data.

For more information on how this sharing process works, please visit:

<https://www.gov.uk/guidance/national-pupil-database-apply-for-a-data-extract>

For information on which third party organisations (and for which project) pupil level data has been provided to, please visit:

<https://www.gov.uk/government/publications/national-pupil-database-requests-received>

If you require more information about how we and/or DfE store and use your personal data please visit:
